

Fire Claims

What information do I need to provide?

The more information you can provide, the faster your claim can be settled.

Typically, your insurer would need to know:

- Details of the circumstances including the date and time of the event
- The exact location where the incident occurred
- Your insurance policy number
- Any photos or video footage showing damage
- An estimated cost of repairs. Two quotes should be obtained
- If emergency repairs are necessary to make the property safe and secure, please keep all related receipts and invoices

Please note your insurer may appoint a Loss Adjuster to assess certain claims.

Please inform Endsleigh as soon as possible by registering your claim here:
